

Design Brief for HTML5 Animation

v2 29th September 2017

Introduction

- This document explains what elements should be displayed on the template depending upon the contents of the data source

Template #1 – 1 Price Field

FieldName	Value
Retail	185.0000
Saving	
WasPrice1	
WasPrice2	
WasPrice3	
WasPrice4	

SALE!

**Automatic Navy
Leather Watch**

A gold-toned automatic watch with a black dial featuring Roman numerals and an exposed mechanical movement. It has a black leather strap.

Fossil - ME3054

£185

Exposed Dial

- There is only 1 price, so don't show the words "NOW ONLY" as the price hasn't changed yet
- Horizontally & Vertically centre the "SALE!" text at top left
- Horizontally & Vertically centre the "Exposed Dial" text
- These data fields are empty: Saving, WasPrice1, WasPrice2, WasPrice3, WasPrice4
- Display the price as "£185" because the value is just "00" for the minor price unit. If the price was "£185.99" then it would show "£185.99"
